Page _____

Name: _____

Date	High Temp	Low Temp	High pressure	Low Pressure	Precip?	Early cloud cover type	Late Cloud Cover type	Prediction (module 8 only)

www.wunderground.com Use the bold-faced words on page 159 for cloud cover types, or write "clear" if there is no cloud cover. To predict the next day's weather, write cooler/warmer, dry/wet, (including type of precipitation), type of cloud (if any) or "no change" if you expect no change in the weather. If you are right, put a check mark next to your predication when you check it the next day.
